

Don Acid Etch

Acid etching solution

DESCRIPTION

Don Acid Etch is a clear liquid solution incorporating acid based materials and corrosion inhibitors.

APPLICATIONS

Don Acid Etch is a surface preparation solution for use on concrete floors prior to sealing, epoxy coating or painting. It removes excess laitance from concrete floors and walls which will undermine coating adhesion. Don Acid Etch is also used for the removal of hardened concrete from tools and equipments.

ADVANTAGES

- » Single component.
- » Ready to use.

METHOD OF USE

Concrete surfaces should be cleaned and degreased before application of Don Acid Etch. Apply evenly using a soft brush and allow time to react; usually around 5 – 10 minutes. Wire brush to remove loose materials.

After the reaction, the surface should be thoroughly rinsed with clean water and fully dry before the application of any coating.

CLEANING

All tools should be cleaned immediately after application with clean water.

PACKAGING

Don Acid Etch is available in 25 litre drums.

COVERAGE

Approximately 2 - 3 m²/litre/coat.

TECHNICAL PROPERTIES @ 25°C:

Colour:	Clear liquid
Specific gravity:	1.07 ± 0.01 g/cm ³

STORAGE

Don Acid Etch has a shelf life of 18 months from date of manufacture if stored in dry conditions at 25°C in original unopened packs.

If these conditions are exceeded, DCP Technical Department should be contacted for advise.

CAUTIONS

HEALTH AND SAFETY

Don Acid Etch should be handled with care. Avoid contact with skin or eyes.

In case of accidental contact, rinse immediately with clean water and seek medical advise. Suitable protective gloves and goggles should be worn.

For further information refer to the Material Safety Data Sheet.

FIRE

Don Acid Etch is nonflammable.

MORE FROM DON CONSTRUCTION PRODUCTS

A wide range of construction chemical products are manufactured by DCP which include:

- » Concrete admixtures.
- » Surface treatments
- » Grouts and anchors.
- » Concrete repair.
- » Flooring systems.
- » Protective coatings.
- » Sealants.
- » Waterproofing.
- » Adhesives.
- » Tile adhesives and grouts.
- » Building products.
- » Structural strengthening.

Note:

We endeavour to ensure that any information, advice or recommendation we may give in product literature is accurate and correct. However, because we have no control over where and how products are applied, we cannot accept any liability arising from the use of the products.
