

# DonFlash V

Fibreglass reinforcing fabric

## Description

DonFlash V is a woven fibreglass reinforcing fabric mesh for vertical applications of AquaSure.

## Applications

DonFlash V is designed to be used as the standard reinforcement material for AquaSure Underground System, in applications such as vertical foundation walls.

## Advantages

- ▲ Provides extra tensile strength for the waterproofing material.
- ▲ Eliminates air pockets between the two layers of AquaSure.
- ▲ Allows the two coats of membrane to bond together easily through the fabric.

## Method of Application

DonFlash V should be properly aligned before application to ensure a 5 - 10 cm overlapping between fibreglass strips.

Embed DonFlash V immediately after the application of first coat of waterproofing, it is important the fabric is applied while membrane is still liquid in order to ensure full contact.

The second coat should applied over DonFlash V until fully soaked and covered.

## Packaging

DonFlash V is supplied in rolls of 1 m width. Rolls should be stored in dry and cool rooms. Protect the material against moisture and direct sunlight.

### Technical Properties:

Thickness:	0.30 mm
Unit weight:	80 g/m <sup>2</sup>
Minimum tensile strength:	
Warp	14 kgf/cm
Weft	16 kgf/cm

## Cautions

### Health and Safety

There is no health hazards associated with DonFlash V in normal use.

## More from Don Construction Products

A wide range of construction chemical products are manufactured by DCP which include:

- ▲ Concrete admixtures.
- ▲ Surface treatments
- ▲ Grouts and anchors.
- ▲ Concrete repair.
- ▲ Flooring systems.
- ▲ Protective coatings.
- ▲ Sealants.
- ▲ Waterproofing.
- ▲ Adhesives.
- ▲ Tile adhesives and grouts.
- ▲ Building products.
- ▲ Structural strengthening.
