**MODERN FLOORING  
SOLUTION FROM DCP**  
**Setseal PU100**

# Setseal PU100

## Setseal PU100

Two-pack, water based Polyurethane sealer and dust proofer can be used over most commercial and industrial concrete and masonry surfaces requiring a hygienic and durable finish

### ADVANTAGES

#### Strong Floors

Excellent abrasion resistance and high bond strength

#### Aesthetic Finish

UV stable and resistant to many of the chemicals commonly found in industrial applications

#### Durable

Non-yellowing, high abrasion and scuff resistance makes it ideal for use in commercial and industrial applications

#### 2-part Polyurethane Technology

Enhanced abrasion and scuff resistance

### PACKAGING

Two component 1.3 - gallon kit  
Jerry can + Tin canister

### COVERAGE

- 1<sup>st</sup> coat diluted 1:1 with water, and subsequent coats should be applied neat

- Typical coverage of the first coat is approximately 407 ft<sup>2</sup>/gal of diluted material

- The typical coverage of subsequent coats is 407 ft<sup>2</sup>/ gal of neat material

*Coverage rates are approximate and will vary according to amount of overcoating during application and substrate porosity. Each subsequent coat will generally require less material.*
